

BECOME MORE COMPETITIVE 'STRENGTHEN YOUR SUSTAINABILITY PROFILE'

SUSTAINABLE VALUE CHAINS IS GOOD BUSINESS

Get support to address risks and impacts in your global value chains and meet growing requirements from customers and authorities for corporate sustainability due diligence. Focus is to ensure competitive advantages by being at the forefront of future requirements for sustainability and explore the opportunities in your value chain.

- Get an overview of focus areas within sustainable and socially responsible value chains
- Gain insight into sustainability risks and ways to reduce or address these
- Get contact to local resources and potential partners to support your work with responsibility in value chains

WHAT CAN WE OFFER?

SUSTAINABILITY RISK MAPPING

- **Guidance and overview of challenges and risks** with focus on sustainability and social responsibility in a specific industry in a certain market.
- **Insight into opportunities** on a specific market based on local experience and contact network.

MAPPING OF POTENTIAL PARTNERS

- **Insight into and contact to local resources, stakeholders and potential partners** within sustainable trade, incl. civil society, (trade) organizations and/or persons working to improve social and environmental conditions.

SUPPLIER SEARCH AND SELECTION

- **Support to selection of potential suppliers** with particular focus on how sustainability and social responsibility can be used as key criteria, including insight into particular attention points and how to support suppliers in working with sustainability.

Special sustainability advisors are placed in the following markets, but we offer support across the organization:

- ✓ Vietnam : hanamb@um.dk
- ✓ Brazil : saogkl@um.dk
- ✓ Türkiye : istgkl@um.dk
- ✓ Bangladesh : dacamb@um.dk
