

Guidelines for CDEF's Minor Grants

CDEF will pilot a more a flexible grant scheme called Minor grant which offer support of maximum 1000 USD for each project/activities. It gives CDEF the chance to provide support to smaller scale cultural projects/activities and to help with urgent financial support to already well-established ones.

Aim and description

The aim of the minor grant is to give the CDEF more flexibility and to give smaller scale projects/activities more opportunities to receive a CDEF-grant. Furthermore, it is a chance to support a more diverse range of artists and art projects/activities.

With a shorter processing time, no deadline, and a simpler and shorter application form, a much larger amount of flexibility is given – to the individual artists as well as the CDEF itself.

The criteria for Minor Grants are the same as for the regular CDEF-grant. Emphasis is on innovation, modernity and new trends.

The CDEF Minor grant is open in supporting either existing or new projects, part of a larger scale project or an entire smaller scale project.

Artists can apply in either Vietnamese or English.

Minor Grant support may be given to support projects/activities or part of projects/activities such as: materials (materials, costumes, equipments, etc.), printing (catalogue, etc.), rent of venue, logistic set up or travel expenses.

Who may apply for the minor grant?

Only Vietnamese individuals or organisations may apply for a minor grant.

Deadline and processing time

There are no deadlines for submission of application for a minor grant. The applications are being processed around the year. An applicant can expect a decision from CDEF after maximum four weeks after he/she handed the application to the Danish Embassy.
